**RETROFIT SEATS FOR COMFORTABLE
AND ERGONOMIC DRIVING**

CRAFTSMANSHIP – MADE IN GERMANY.

"The craftsmanship of these German seats sets them clearly apart from the competition. The way they are manufactured and the material used to build shows the company deeply cares about making something that will last and shows company pride. I highly recommend these seats to anyone looking to upgrade. You won't be disappointed."

Anthony Werre, customer

COMFORT AND ERGONOMICS.

"A quality seat is the part of your truck you'll spend the most time in contact with, and comfort is incredibly important over multiday drives. Your butt and lower back will appreciate the scheel-mann seats."

Wes Siler, outsideonline.com

SEATS, PERFECTED.

"Some people did not realize how uncomfortable their seats were, until they were sitting in the scheel-mann seats."

Baker, bornadventure.com

FUNCTIONAL, TIMELESS, REFINED.

Since 1966, we have been passionately crafting custom orthopedic seat upgrades in Germany, designed specifically for off-road, sports, and transport vehicles. Inspired by our rich motorsport heritage, we bring that same high-performance spirit into our exclusive range of ergonomic, functional, and stylish retrofit seats. Experience the perfect blend of craftsmanship, comfort, and innovative design – made to elevate your driving experience!

SPORTLINE

The Sportline series has a sporty look and feel as well as the most pronounced side bolsters. The backrest is foldable and can be unlocked on both sides.

The **Sportline F** version combines these large side bolsters in the backrest with flat side bolsters in the seat cushion (F).

This model is therefore ideal for vehicles with high egress/ingress.

SPORTLINE F

- ♦ Flat side bolsters in the seat cushion (F)
- ♦ Rectangular headrest with height and tilt adjustment

P/N: **0812100**

SPORTLINE T

Very short, flat seat (K) bottom. This is for special applications, e.g. a swivel seat

- ♦ Short and flat seat cushion (K)
- ♦ Round headrest with height and tilt adjustment

P/N: **0812111**

OPTIONAL

- ♦ Heating with wiring harness and switch
P/N: **0891002**
- ♦ Luggage net
P/N: **0899046**
- ♦ Standard armrest L/R
P/N: **0790003/04**
- ♦ Armrest close to seat L/R
P/N: **0790013/14**

The luggage net for Tour and Track: Designed for stowing maps, drinks or laptops – the luggage net offers sufficient space for all your essentials.

TRAVELLER

The Traveller series offers a lot of side support in the backrest and ensures the perfect sitting position on long bumpy journeys. High side bolsters in the backrest ensure a stable sitting position and comfortable driving. The backrest is foldable and can be unlocked on both sides.

The flat side bolsters in the seat cushion make the **Traveller F** model ideal for vehicles with high ingress/egress, e.g. Toyota Land Cruiser or a van. The standard H version finds its place in vehicles with low ingress/egress, e.g. BMW, Porsche.

TRAVELLER F

- ◆ Flat side bolsters in the seat cushion (F)
- ◆ Comfort headrest with height and tilt adjustment

P/N: **0841100**

TRAVELLER H

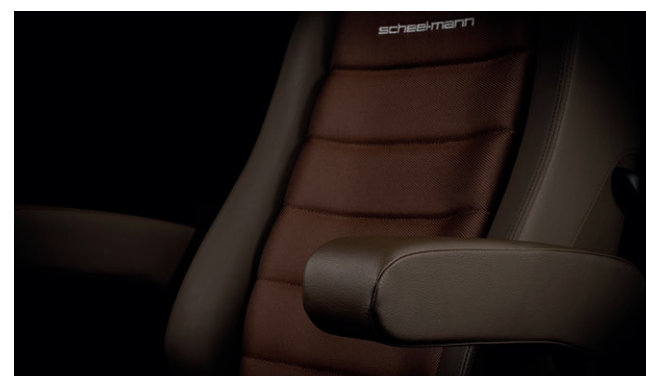

High side bolsters in the seat cushion provide maximum thigh support

- ◆ High side bolsters in the seat cushion (H)
- ◆ Comfort headrest with height and tilt adjustment

P/N: **0941100**

OPTIONAL

- ◆ Heating with wiring harness and switch
P/N: **0891002**
- ◆ 4-way lumbar support
P/N: **0899036**
- ◆ Luggage net
P/N: **0899046**
- ◆ Standard armrest L/R
P/N: **0790003/04**
- ◆ Armrest close to seat L/R
P/N: **0790013/14**

Ergonomic foam parts and high backrests allow driving pleasure on long journeys.

TOURING

The Touring series has flat side bolsters in the backrest and offers a lot of space to its occupant.

The backrest is foldable and can be unlocked on both sides.

With its flat side bolsters in the seat cushion, the model **Touring F** is especially suitable for vehicles with high ingress/egress. The standard version H is ideal for vehicles with low ingress/egress.

TOURING F

- ◆ Flat side bolsters in the seat cushion (F)
- ◆ Comfort headrest with height and tilt adjustment

P/N: **0851100**

TOURING H

High side bolsters in the seat cushion (H) provide maximum thigh support

- ◆ High side bolsters in the seat cushion (H)
- ◆ Comfort headrest with height and tilt adjustment

P/N: **0951100**

OPTIONAL

- ◆ Heating with wiring harness and switch
P/N: **0891002**
- ◆ 4-way lumbar support
P/N: **0899036**
- ◆ Luggage net
P/N: **0899046**
- ◆ Standard armrest L/R
P/N: **0790003/04**
- ◆ Armrest close to seat L/R
P/N: **0790013/14**

Both seating comfort and long-term ergonomics are enhanced by folding armrests, covered in the same color as the side bolsters.

VARIO

The Vario series has mechanically adjustable side bolsters in the backrest that can be perfectly adapted to the driver. What's more, ideal thigh support is assured by a seat depth adjustment from 495-595 mm.

With its flat side bolsters in the seat cushion, the model **Vario F** is ideal for vehicles with high ingress/egress. The standard H version finds its place in vehicles with ingress/egress.

VARIO F

- ◆ Flat side bolsters in the seat cushion (F)
- ◆ Comfort headrest with height and tilt adjustment
- ◆ 4-way lumbar support integrated as standard
- ◆ Seat depth adjustment 495 – 595 mm

P/N: **0841124**

OPTIONAL

- ◆ Heating with wiring harness and switch
P/N: **0891002**
- ◆ Luggage net
P/N: **0899046**
- ◆ Standard armrest L/R
P/N: **0790003/04**
- ◆ Armrest close to seat L/R
P/N: **0790013/14**

VARIO H

- High side bolsters in the seat cushion (H) provide maximum thigh support
- ◆ High side bolsters in the seat cushion (H)
 - ◆ Comfort headrest with height and tilt adjustment
 - ◆ 4-way lumbar support integrated as standard
 - ◆ Seat depth adjustment 495 – 595 mm

P/N: **0941124**

The Vario's backrest release mechanism on both sides allows the backrest to be folded into a fully forward position.

VARIO XXL

The Vario XXL series features an impressively high backrest designed specifically for the taller driver. The backrest is 70 mm higher than in the standard version and offers perfect shoulder support for tall people.

The seat can be perfectly adapted thanks to mechanically adjustable side bolsters in the backrest. The seat depth adjustment from 495 mm to 595 mm ensures perfect thigh support.

VARIO XXL F

- ◆ Flat side bolsters in the seat cushion (F), high backrest
- ◆ Comfort headrest with height and tilt adjustment
- ◆ 4-way lumbar support integrated as standard
- ◆ Seat depth adjustment 495 – 595 mm

P/N: **0841128**

OPTIONAL

- ◆ Heating with wiring harness and switch
P/N: **0891002**
- ◆ Luggage net
P/N: **0899046**
- ◆ Standard armrest L/R
P/N: **0790003/04**
- ◆ Armrest close to seat L/R
P/N: **0790013/14**

VARIO XXL H

- High side bolsters in the seat cushion (H) provide maximum thigh support
- ◆ High side bolsters in the seat cushion (H), high backrest
 - ◆ Comfort headrest with height and tilt adjustment
 - ◆ 4-way lumbar support integrated as standard
 - ◆ Seat depth adjustment 495 – 595 mm

P/N: **0941128**

Thanks to its fully upholstered comfort, the Vario's height- and angle-adjustable headrest absorbs impacts softly.

VARIO F KLIMA + VARIO XXL F KLIMA

The Vario is now available with both ventilation and heating features, taking your driving comfort to the next level. Thanks to integrated fans in the seat surface and backrest, the active ventilation system ensures constant air circulation, preventing heat buildup between your body and the seat. This means you stay pleasantly cool, even on the hottest days. Additionally, the built-in seat heater provides cozy warmth exactly when you need it most, making every drive more comfortable and enjoyable. Experience the perfect combination of cooling and heating with the Vario – designed to keep you comfortable in any weather!

VARIO F KLIMA

- ◆ Integrated ventilation system and heating
- P/N: **0841127**

VARIO XXL F KLIMA

- ◆ Integrated ventilation system and heating
- P/N: **0841129**

SCHEEL 101

The Legend Returns. Since 1966, the iconic Scheel bucket seat revolutionized driving forever. With its ergonomic design and a focus on driver comfort, a true legend was born. Made in Germany: Inspired by the visionary Rolf Scheel from Stuttgart and perfected through our relentless pursuit of excellence, the Scheel 101 is now the most comfortable, authentically German-made sports seat. Its unique shell shape isolates vibrations and channels the sporty spirit of its driver directly to the road. Experience driving like never before with the Scheel 101 – where tradition meets innovation for the ultimate in comfort and performance.

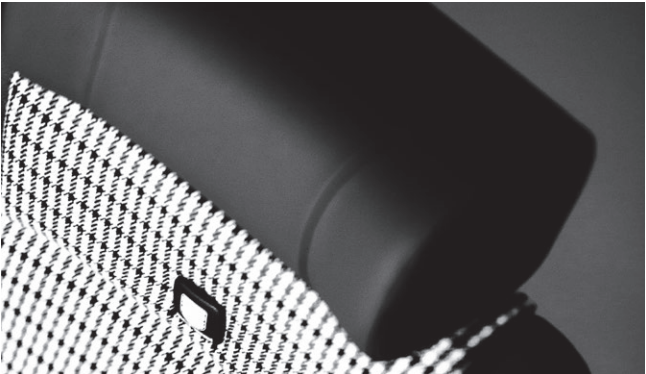

SCHEEL 101

- ◆ Adjustable backrest
- ◆ Legendary Cord fabric
- ◆ Ergonomic lumbar support
- ◆ Adjustable seat cushion
- ◆ Attachment points for lap belt integrated in the seat frame
- ◆ Suspended floor padding to isolate from vibrations

SCHEEL 101 right, P/N: **0910200**
SCHEEL 101 left, P/N: **0910210**

OPTIONAL

- ◆ Without headrest
- ◆ With belt slot

The choice is yours: with or without a headrest. Either way, the Scheel 101 boasts a unique design.

LR EDITION

The scheel-mann LR Edition models are available in all model variants except the Vario and are specifically optimised for the Land Rover Defender®. The seat cushion folds up by approximately 90°, permitting access to the on-board electronics.

All models in this series are equipped with seat cushion (F). Due to lack of space in the Defender® (90), the backrest release is mounted on the inboard side only. In addition, we also recommend a smaller sports steering wheel.

For installation of the scheel-mann seats in the 90 or 110 model with a hardtop, the bulkhead has to be moved and shortened. The flat scheel-mann installation bracket is required for installation in all Defender® vehicles.

OFFROAD ADVENTURE WITH UNMATCHED ERGONOMICS.

Our sporty upgrade seats not only deliver dynamic performance on the road but also excel where others fall short – in challenging off-road terrain. Experience the perfect blend of sportiness and ergonomics, no matter where your journey takes you!

DESIGN MEETS COMFORT.

Thanks to a wide range of customization options, the scheel-mann seat can be tailored to perfectly match your personal style and comfort preferences. Make your vehicle truly unique and elevate your driving experience!

WHAT DO YOU DRIVE?

We offer comfortable retrofit seats for every body type and a wide range of vehicles. Choose your model, and we'll provide you with personalized recommendations to create an unparalleled seating experience tailored just for you!

HANDCRAFTED – MADE IN GERMANY.

The premium quality of our scheel-mann seats derives from the traditionally high standards of German craftsmanship. Experience the perfect blend of craftsmanship and excellence on each journey. What are you waiting for?

we design quality.

Since 1922, the joy of healthy and comfortable sitting has been our driving force. With a great deal of love and craftsmanship, we have been building orthopaedic retrofit seats for the off-road, sports and transportation sectors in Germany since 1966. Driven by the heritage of motorsport, we transfer these high standards into our unique series of orthopaedic, functional and stylish retrofit seats.
